

**Floor care
has never
been
so smart.**

TASKI
Diversey

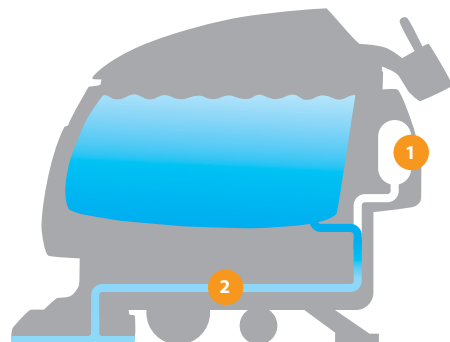

If your floors could talk...

...what would you want them to say?

You would want them to thank you for using intelligent solutions for scrubber-dryers from TASKI® by Diversey™. For more than 50 years, TASKI has led the way in the floor care machine industry, delivering remarkable performance and increased operational efficiency—while reducing environmental impact. At the heart of the machines, advanced TASKI IntelliDose™ & IntelliFlow™ solutions provide unrivaled water and chemical management for superior cleaning that is better for the world and your bottom line.

TASKI IntelliDose and IntelliFlow solutions work in concert with one another to deliver superior results.

- 1 The TASKI IntelliDose unit calculates and doses the precise amount of chemical for a perfectly balanced mixture every time.
- 2 TASKI IntelliFlow then uses speed dependent logic to deliver the precise amount of that mixture to the floor.

IntelliDose

Deliver environmental sustainability!

Reduce water consumption by up to 50%!

Clean up to 480,000ft²/45.000m² per pouch!

...what would you want them to say?

You would want them to thank you for using intelligent solutions for scrubber-dryers from TASKI® by Diversey.™ For more than 50 years, TASKI has led the way in the floor care machine industry, delivering remarkable performance and increased operational efficiency—while reducing environmental impact. At the heart of the machines, advanced TASKI IntelliDose™ & IntelliFlow™ solutions provide unrivaled water and chemical management for superior cleaning that is better for the world and your bottom line.

TASKI IntelliDose and IntelliFlow solutions work in concert with one another to deliver superior results.

- 1 The TASKI IntelliDose unit calculates and doses the precise amount of chemical for a perfectly balanced mixture every time.
- 2 TASKI IntelliFlow then uses speed dependent logic to deliver the precise amount of that mixture to the floor.

TASKI IntelliFlow. Precision Matters.

The patented TASKI IntelliFlow application control solution delivers the proper amount of cleaning solution and water onto the floor according to the speed of the machine. As the operator slows down, the advanced system adjusts in real time to use less solution—decreasing water consumption by up to 50%, reducing time-consuming tank fills, and lowering costs. That means faster cleaning with consistently dry floors and sustainable value for your business.

The IntelliFlow advantage

Without TASKI IntelliFlow, solution is delivered unevenly. As the machine slows in turns, more solution is released per square foot, causing puddles, wasted supplies and more frequent tank refills. TASKI machines with IntelliFlow use speed-dependent application technology to always deliver a consistent amount of solution per square foot, decreasing the number of tank refills and wasted water.

Superior performance all-in-one system

- ▶ Immediate drying lowers accident risk, allowing for faster, consistent dry times.
- ▶ Up to 50% saving of cleaning solution vs. conventional machines.
- ▶ High quality and consistence of cleaning result.

TASKI IntelliDose. Smarter Dosing.

Our proprietary, IntelliDose dilution control solution calculates and delivers the optimal amount of chemical for any task or floor type, ensuring superior cleaning while controlling and reducing chemical consumption. The disposable pouches can be swapped out effortlessly, making it easier to use and improving safety. Our unique approach maximizes effectiveness and simplifies your operation—taking your cleaning to a new level.

Simple, safe and environmentally friendly

- ▶ Closed pouches for secure handling and no operator contact with chemicals.
- ▶ No manual dosing required, removes operator guesswork—just fill with water and start cleaning.
- ▶ Simple pouch change—acoustic warning signal indicates when pouch is empty.

- ▶ Selection of different products for different tasks, meeting all requirements for various floors and application areas.
- ▶ Five times less chemistry used, resulting in less storage space and 90% packaging material reduction.

Get the IntelliDose & IntelliFlow solutions from TASKI by Diversey, the intelligent technologies for scrubber driers that will contain costs, improve efficiency and deliver environmental sustainability.
