

AERO 8 / 15

Highest efficiency with low noise emission made by TASKI

TASKI AERO 8 and 15

The TASKI AERO 8/15 high-efficiency vacuum cleaner uses state-of-the-art technology and has a super-efficient motor. With the patented TASKI whisper technology, the vacuum cleaner works ultra-silently. What's more, replacement of parts such as cables and filters is simplified by clever design and can be carried out by the user in seconds without the need for any tools. Upgraded in 2021 with tougher, stronger components and accessories for even greater durability.

TASKI AERO 8/15 brings you:

- Compact and robust TASKI design
- Sustainable high-efficiency concept
- Ultra-silent TASKI whisper technology
- Upgraded components and accessories for even greater durability

Compact and robust TASKI design

The functional, compact and robust design allows for storage in small spaces or cupboards. The integrated ergonomic handle also makes it very easy to carry and provides a simple and convenient manual cable tidy.

Sustainable high-efficiency concept

The new TASKI AERO tub vacuum cleaners are highly efficient and use a 585W state-of-the-art vacuum motor, which delivers the same cleaning performance as vacuums with 900W or more. This is achieved through an ingenious airflow system. As a result, the vacuum cleaner saves significant amounts of energy and reduces CO2 emissions without compromising on cleaning results in any way.

Ultra-silent TASKI whisper technology

Thanks to the innovative and patented TASKI whisper technology, the TASKI AERO is extremely quiet. This low noise level means it can be operated in any environment at any time of day or night.

Upgraded components and accessories for even greater durability

The series 2 upgrade delivers an upgrade to all AERO 8/15 models. Starting with new wheel, hood cover, molding joints, cables and extra protective packaging. New accessories include telescopic tube, metal elbow and hose connector. Series 1 customers can even order an accessory upgrade kit for even longer life.

AERO 8 / 15

Technical data			
Canister capacity	13 l / 15 l	Working radius	16 m
Bag type (fleece/paper)	Both	Cable length	12.5 m
Nominal consumption	585 W	Hose length	2.2 m
Voltage	220/240 V	Suction tubes	Metal telescopic
Weight with cable	6.4 kg / 7.3 kg	Floor tool width	280 mm
Sound pressure level	53 dB(A)	Dimensions	424 x 313 x 353 mm 426 x 313 x 390 mm
Sound power level	66 dB/63 dB	Protection class	Class II
Vacuum	17.41 kPa	Hepa option	Yes
Max air flow	33 l/sec	Approvals	Tüv/SEV/CE
Filtration (stages)	3
