The ULTIMATE  
Cleaning Machines™

## **TASKI IntelliSpray**

The ultimate cleaning machine now  
with **integrated disinfection**

# IntelliSpray: Elevating safety to protection

Newly developed by TASKI, IntelliSpray technology disinfects facilities, creating a protective environment for users and giving you extra peace of mind.

## Complete Protection

IntelliSpray integrates with TASKI ride-on machines as an optional function to disinfect floors and vertical surfaces in a unified scrub and spray process. IntelliSpray is a conscientious way of increasing protection for facility users without increasing cleaning time.

## Facility-Wide Disinfection

The IntelliSpray from TASKI is a multi-nozzle system that fits onto existing TASKI ride-on machines. Nozzles at the rear of the machine coat the floor with a fine mist of your chosen disinfectant, while side-mounted vertical nozzles coat additional surfaces with a protective layer. A manual operated sprayer with an extending hose is included to allow operatives to disinfect less accessible areas.

## New or Retrofit Option

IntelliSpray is available now as an option on all new TASKI machines. It can also be retrofitted to your existing fleet by our skilled engineers.

The ultimate machine, cleaning and disinfecting your facility, protecting your users.

*Suitable for use  
with IntelliSpray*

*TASKI swingo  
2100*

*TASKI swingo  
4000*

*TASKI swingo  
5000*

**IntelliSpray is a multi-nozzle, fine mist, disinfectant system.**

**It creates protective environments with a single-pass scrub and spray process**

**Available on all new TASKI ride-on machines or as a retrofit for your existing fleet**

**Peace of mind through powerful protection**

It's natural to be concerned about reopening your facility. You have a responsibility to keep people safe in a post-pandemic environment where there are continuing health threats. Creating a safe zone, diligently protecting your facility, is of paramount importance.

**To reduce the risk to your facility users, and to allay their concerns, the floors, surfaces and furniture in your facility need to be cleaned thoroughly. You may choose to go further, disinfecting these areas, to provide a greater level of hygiene and protection.**

TASKI is one of four core areas of the Diversey business.

Diversey has been, and always will be, a pioneer and facilitator for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors. Headquartered in Fort Mill, South Carolina, USA, Diversey employs approximately 8,800 people globally, generating net sales of approximately \$2,7 billion in 2018.
