

TASKI®

# ULTIMAXX

Facility  
Management

The logo consists of the word "TASKI" in white, sans-serif capital letters inside a solid orange square.

# ULTIMAXX

# At TASKI we work hard to understand your critical business needs

## Operational Efficiency

TASKI machines will increase your operational efficiency through our innovation, superior productivity and fleet management tools. At TASKI we have a reputation for excelling in both cleaning results and productivity. Designs such as self-adjusting squeegee and easy-to-clean yellow maintenance points all add up to more available cleaning time. Our designers and engineers challenge convention, they optimise and innovate to achieve the ULTIMATE in cleaning excellence.

## Profitable Growth

We understand cleaning is your business and that you need to reduce your labour bill. By mechanising more of your cleaning we can help improve your profit or do more with the labour you have to impress your clients and retain business. We have developed innovations and technologies with you in mind.

## Continuous Innovation

We appreciate your sector is highly competitive and you need to differentiate. By using the latest technologies and the Internet of Clean you will improve client satisfaction and retention rates. Nobody has worked harder to connect more devices and make smart data available than TASKI. We lead the market with INNOVATION. Innovation is synonymous with TASKI.

## People and Safety

We know you have a duty of care to protect your team and customers to improve hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels means user comfort is assured. Intuitive dashboard with common icons means little training is needed. All our dry vacuums are available with HEPA filters for superior air quality. We are known for our patented squeegees. Having the best water pick up means less stops, less re-cleans plus most importantly, less risk of slip falls.

## Working Capital Optimisation

We want you to invest smartly. At TASKI we will help you make your money work harder for you. We can demonstrate how to improve your ROI and shorten your payback. Our finance options include leasing and rental which means you can keep your capital for other investments. TASKI machines are designed to quickly pay for themselves, we know total cost of ownership is more important to you than simple purchase price.

## Sustainability

As a responsible business you will have sustainability goals, your clients may also have expectations. Sustainability doesn't only mean Green, at TASKI it's Orange. Sustainability is at the heart of everything we do, it comes naturally to us. We have technologies to reduce utilities up to 76% to meet sustainability goals. Our vacuums reduce energy consumption, savings we can help you share with your clients.

# The full force of TASKI

TASKI **ULTIMAXX**

## Introducing the new ULTIMAXX scrubber range, the next generation of ULTIMATE cleaning machines.

These machines set a new benchmark in design, construction and performance. Integrated modular brush deck technology and a new set of features deliver cleaning excellence.

ULTIMAXX scrubbers by TASKI empower your organization to increase efficiency, reduce costs and improve cleaning results.

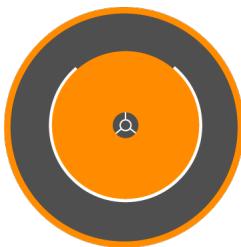

Better, stronger and smarter.

**ULTIMATE FLEXIBILITY, MAXIMUM PRODUCTIVITY**

The all new TASKI ULTIMAXX range offers a wide range of possibilities to meet the highest expectations.

This new level of modularity allows you to customize the machine for the cleaning process with a flexible selection of working width and brush decks.

Brush decks: Single disc | Dual disc | Dual disc TWISTER PLUS | Dual cylindrical with hopper | Orbital rectangular.

### SINGLE DISC

The new single disc deck has direct gear construction, significantly improving length of use combined with perfect water distribution for reliably high cleaning standards.

### DUAL DISC

Dual disc technology allows high productivity in combination with excellent cleaning results. The offset dual disc brush decks allows simple, water-efficient close-to-wall cleaning. Also available as TWISTER version.

### ORBITAL

Deep cleaning and top stripping made easy with robustly designed orbital head technology that minimises vibration. Combined with TWISTER diamond pads, the orbital deck becomes a chemical-free, multipurpose deck.

### DUAL CYLINDER WITH HOPPER

The new ultra-robust dual cylinder roller brush deck sweeps and cleans in a single pass, reducing the need for pre-sweeping on structured floor surfaces.

# Signature features created with you in mind.

TASKI **ULTIMAXX**

Our customers drive our business, it's part of our success. TASKI products are constructed with the highest quality components and are designed to last.

## Intelligent solutions to your business needs.

### IntelliZone

Predefine your cleaning application for areas where special attention is key. The programming of all parameters can be done within few minutes and access levels can also be protected. The IntelliZone will be displayed direct at the main dashboard at the touch screen.

### IntelliTouch

The new TASKI IntelliTouch is a multi-surface touch screen allowing advanced scrubber operation, showing key elements such as speed and area cleaned. The interface can be customized to have key functions directly accessible and the cleaning programs can be pre-defined, with one touch the right settings are put in place. Color coded information illustration makes sure that the user is always in full control.

### IntelliKey

The new IntelliKey uses smart NFC technology and access rights for users can be pre-defined, protecting the machine against misuse.

### IntelliTrail – Remote & IntelliPredict

IntelliTrail - Remote allows two way communication to cloud services. The telemetry module is directly linked to the electronics and a new level of proactive service that will deliver the next level of uptime.

- Remote service
- Full service history recorded
- Battery management
- Predictive service

### Yellow maintenance points

TASKI was the first to introduce easy to recognize yellow maintenance points for the operators to maintain. Cleaned regularly they collectively reduce preventable callouts by as much as 50%. Clean water: prevents blockages in water flow. Squeegee: yellow no-tool click mechanism to easily remove. Recovery solution filter: collects larger debris to reduce blockages. Air filter: extends vacuum motor life. Easily remove/clean to increase water recovery.

### Patented squeegee technology

TASKI superior water pick up is built on the patented squeegee design, combined direct suction line and high-quality long-life blades. With the new ULTIMAXX range, the high standard rises again of course, the three-caster squeegee design still offers no-tool-maintenance and no pitch adjustments. Combined with high quality materials and protective coatings, the TASKI squeegee guarantees long-term consistent cleaning results.

### Finance Solutions

TASKI offer a range of flexible finance options including leasing, rental and pool lease. TASKI Leasing Options are a suite of flexible and cost-efficient solutions to acquiring TASKI machines with the assurance of TASKI Service. Options available include: Hire purchase and Operating Lease. TASKI Rental answers the need of a growing trend for flexible access to machines for a shorter period without owning or leasing an asset. IntelliTrail Analytics is like having your own consultant and fleet manager right at your fingertips. If you have a large fleet, ask for more details about fleet management.

### Operational efficiency

1. IntelliTrail - improve productivity, save labour, optimise your fleet.
2. IntelliPredict - state-of-the-art electronic remote service to minimise downtime.
3. Cylindrical roller brush option - up to 30% productivity increase by eliminating pre-sweeping completely.
4. Twister mode - the only manufacturer with fully integrated settings. One touch of a button, the machine directly adjusts settings for perfect results with shine levels normally associated with specialist applications.
5. IntelliPower - fast charging, longer lifespan, more range. Plug and go. Always ready.
6. IntelliFlow - speed dependent solution results in up to 50% saving of cleaning solution versus conventional machines. Less tank refills means less unproductive time.

### Profitable Growth

1. IntelliTrail - improve productivity, save labour, optimise your fleet.
2. IntelliPredict - state-of-the-art electronic remote service to minimise downtime.
3. IntelliPower - fast charging, longer lifespan, More range. Plug and go. Always ready.
4. IntelliFlow - speed dependent solution results in up to 50% saving of cleaning solution versus conventional machines. Less tanks refills = less unproductive time.
5. Cylindrical roller brush option - up to 30% productivity increase by eliminating pre-sweeping completely.
6. IntelliDose - accurate chemical dosing. 0% wastage. 90% reduction in packaging

### Cost control

1. IntelliTrail - improve productivity, save labour, optimise your fleet. Connected 24/7 for complete visibility.
2. IntelliPredict - state of the art electronic technology, connecting and controlling all electronic parts to facilitate low cost remote service.
3. IntelliDose - accurate chemical dosing. 0% wastage. 90% reduction in packaging.
4. Twister Mode - one pass cleaning. Reduction in time with or without chemicals.
5. IntelliPower - fast charging, longer lifespan, maintenance-free lithium batteries. More range. Multiple charges per day. 25% TCO savings. Lower service costs.
6. Finance Options - purchase, leasing or rental fixed cost options with or without service to reduce TCO.

### Sustainability

1. IntelliFlow/IntelliDose - up to 70% reduction in water consumed. 0% chemical wastage and 90% reduction in packaging.
2. Eco mode - energy saving low noise setting. Also minimises disruption to the public.
3. Twister Mode - reduction in chemicals and packaging.
4. IntelliPower - 5x faster charging. Maintenance free. Less frequent replacements. Less engineer visits delivering big savings for you.
5. Whisper digital motors - smaller, lighter, more efficient motors use less energy and need next to no maintenance. Much lower carbon footprint.
6. IntelliPredict - from reactive to proactive and will reduce engineer visits reducing carbon footprint.

### People and Safety

1. IntelliKey - smart NFC technology. Only authorised users. Tamper proof.
2. IntelliTouch/IntelliZone - interactive touch screen. Help menus give direct support for safe use and minimise misuse.
3. IntelliTrail - next generation telemetry and digital ecosystem driven through connectivity. 24/7 oversight of your entire fleet. Full asset management.
4. IntelliDose - safe chemical dosing. Rescue risk to public and employees.
5. Twister Mode - one touch of a button, the machine directly adjusts the speed and water settings for perfect results. Simple & safe.
6. HEPA Filter - H13 efficient particulate filters to reduce risk to customers and employees.

### Continuous Innovation

1. **IntelliKey** - smart NFC technology. Without the key the machine remains in safe anti tamper mode.
2. **IntelliTouch/IntelliZone** - interactive touch screen and connectivity for video tutorials and help menus give direct support safe use.
3. **IntelliBac** - antimicrobial tanks reduce risk of microorganisms and cross contamination.
4. **HEPA Filter** - H13 efficient particulate filters improve air quality for customers and employees.
5. **Twister Mode** - reduction in chemicals and packaging.
6. **IntelliPredict** - from reactive to proactive and will reduce engineer visits reducing carbon footprint.

### Working Capital Optimisation

- IntelliTrail** - improve productivity, save labour, optimise your fleet.
- IntelliPredict** - state-of-the-art electronic remote service to minimise downtime.
- IntelliPower** - fast charging, longer lifespan, More range. Plug and go. Always ready.
- IntelliFlow/ IntelliDose** - up to 70% reduction in water consumed. 0% chemical wastage and 90% reduction in packaging.
- Twister Mode** - one pass cleaning. Reduction in time with or without chemicals.
- Finance Solutions** - purchase, leasing or rental fixed cost options with or without service to reduce TCO.

ULTIMAXX scrubber driers are packed full of Intelligent Solutions. Take a look inside and you will find technologies, patents, smart designs and clever engineering, all with the purpose of addressing the challenges you face.

TASKI®

# ULTIMAXX

TASKI is one of four core areas of the Diversey business.

TASKI The ULTIMATE Cleaning Machines
