NEXT GENERATION INTERNET-OF-THINGS  
FLEET MANAGEMENT

**TASKI** **ULTIMAXX**

# WHAT HAPPENED PREVIOUSLY?

## IntelliTrail 1.0

IntelliTrail is available for all swingo machines and provides core features for all major TASKI assets. All IntelliTrail 1.0 features are also available for the ULTIMAXX machines.

057948 // 05467983

### GEO-POSITIONING

Live position of each machine

### OUT-OF-GEOFENCE

Receive alerts when machine leaves the site

### USAGE OVERVIEW

Learn when and how long machines are used

### TIME PLAN

Schedule your machine usage precisely

### ANALYTICS

Improvement suggestions to generate savings

### MACHINES

Activity-based service scheduling

### BATTERY MONITORING

Alert when battery is critically low

### CRASH RECORDING

Receive alerts when machine recognizes a collision

### ACTIVE MESSAGING

Customizable email alert system to always stay up to date

### API

Connect intellitrail to your asset management system

### PREVENTATIVE MAINTENANCE

15000 Machines live globally

### EASY START

Simple start-up and user-friendly

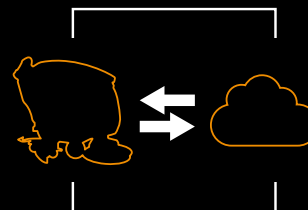

# INTELLITRAIL 2.0

023645 // 15468520

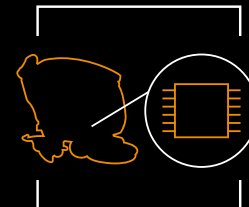

- IntelliTrail 2.0 is a technological leap for fleet management, machine insight, remote service, and software updates.

078320 // 06384561

Two-way data transfer from all machine components to the cloud based digital ecosystem.

The new device has a deeper integration into the machine and receives information from all key components.

This data stream ultimately leads to lower cost, more control and higher performance.

# INTELLITRAIL 2.0

## KEY FEATURES

### Service Hub

Keep an overview of your service needs, open requests and service spent.

### IntelliPredict

24/7 component-level overview and diagnostics.

### Service offerings

New, attractive and lower cost service offerings, all including IntelliTrail 2.0 connectivity.

### Battery monitoring

Receive information about remaining lifetime, battery misuse & incorrect charging.

### Over-the-air updates

Receive OTA-Machine firmware updates and improvements without a technician visit.

### Total Cost of Ownership

Receive a TCO overview of your active machine spent, split between labour, investment, service and more.

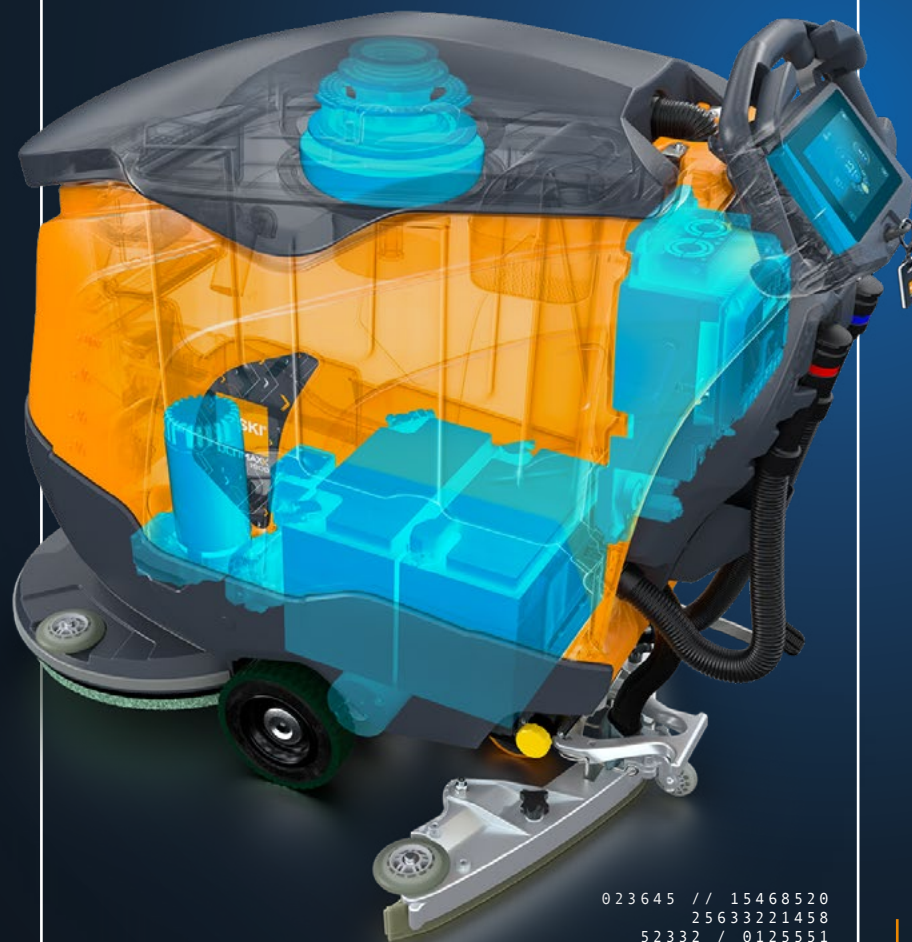

### Sustainability

Receive live in-use sustainability assessments and savings suggestions to improve your sustainability score.

### Pay-per-hour

New purchasing option. Pay per hour of machine usage.

# BATTERY MONITORING

086153 // 13548975

036154 // 05164897

## The Problem

Gel Batteries can break if their charging sessions are interrupted mid-charge. This can happen if a machine is needed for a spot clean or if the users of the machines are not aware that this damages it.

## The Solution

The **Battery Care Indicator** of IntelliTrail monitors all charging sessions and categorizes them in complete and incomplete cycles.

## The Trigger

If a battery isn't charged properly, it results in a low score, giving immediate insight that the battery will not last as long as expected if that behaviour continues.

Site managers and users can view these scores in the system or receive email alerts, changing their behaviour accordingly.

## The Savings

Up to 40% savings if batteries are cared for correctly.

# TASKI INTELLIPOWER LI-ION BATTERY ADVANTAGES

**30%**

Reduction in total cost of machine & battery

**Just Charge**

Stop worrying when and how to charge

**40% More**

Battery autonomy

**Faster**

Charging

**Longer**

Battery Life

# TASKI INTELLIPREDICT

05165 // 05168132

- ✓ Fueled by data from IntelliTrail 2.0 Remote
- ✓ TASKI IntelliPredict allows 24/7 monitoring of all key components, like the vacuum or brush motor.
- ✓ It gives an early warning if parts are about to fail or need replacement.
- ✓ Reducing abrupt breakdowns and overall machine downtime.
- ✓ IntelliPredict is part of all service offerings.

# SUSTAINABILITY REPORTING

095179 // 0058491

## > Learn your impact

Did you know that the majority (51%) of the sustainability impact of the ULTIMAXX machine stems from the machine usage and its various consumptions like; water, energy, chemicals and other consumables?

IntelliTrail 2.0 gives you an overview of your key CO<sub>2</sub> drivers. Learn how much water, energy and chemicals your machine consumes per shift or per year.

### Water Saved (Litres)

Market Average:  
4421

> You Currently:  
**2100**

Potential:  
1200

### Chemical Saved (Canisters)

Market Average:  
343

> You Currently:  
**122**

Potential:  
96

### Energy Saved (KWh)

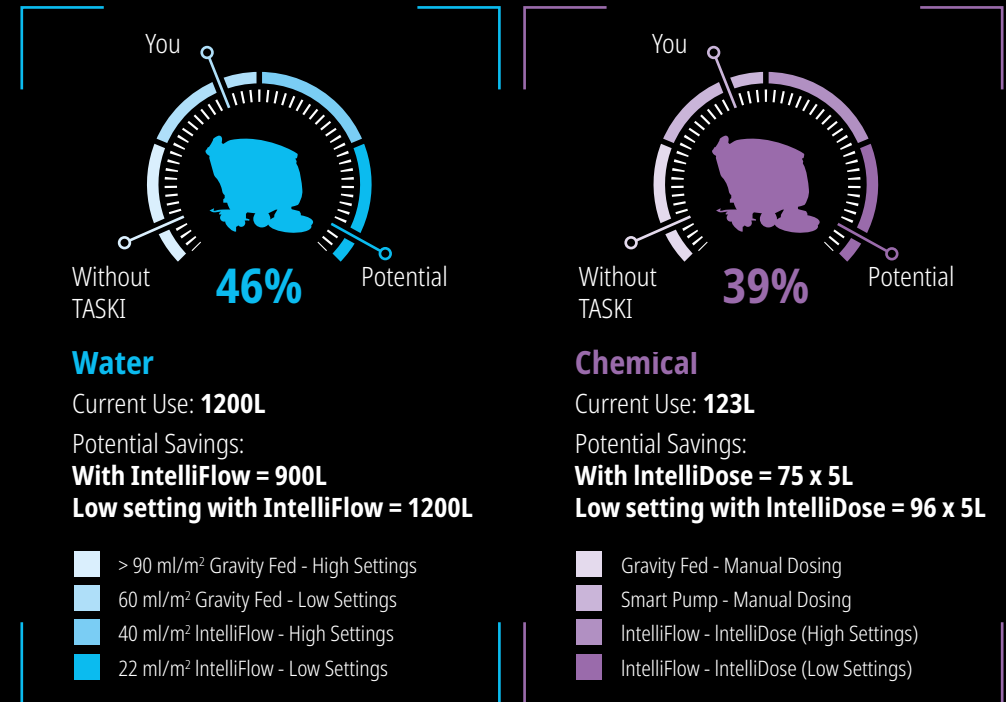

Market Average:  
23200

> You Currently:  
**19001**

Potential:  
13883

## > Improve your impact

Furthermore, it gives you guidance on how to improve your sustainability score by reducing your water and energy consumptions. It can be as easy as reducing the water setting by 1 on the machine!

## > How it works

Each machine reports its consumptions on a daily basis and is compared vs. other similar machines with IntelliTrail. It is benchmarked and improvements along the efficiency scales are made.

Download a report on individual machines or your entire fleet to learn your potential water, chemical or CO<sub>2</sub> savings and track them as you improve.

# NEW SERVICE OFFERINGS

023645 // 15468520

IntelliTrail 2.0 is now included in all our ULTIMAXX service contract offerings.

078320 // 06384561

IntelliTrail 2.0 is a game-changer to further improve our machine service.

- ✓ Learn when service is required
- ✓ Learn when service was done/cost
- ✓ Activity-based service scheduling
- ✓ Predictive service scheduling (IntelliPredict)
- ✓ Prevent service interventions (self-service for simple issues)

## Your benefits

- ✓ Reduce / prevent overall breakdowns
- ✓ Improved productivity
- ✓ Reduction in service cost
- ✓ Improve Uptime

New Service Contract offerings saves up to 40% on comparable previous service offerings

### IntelliCheck

Preventative service plan with activity-based service scheduling (min. 1 visit / year)

### Full Service

All-inclusive service offering (preventative, predictive and breakdown service incl. batteries)

### TASKI Promise

New service approach! Machine uptime guarantee with reimbursements if guarantee is not met by us.

# PAY PER HOUR

078320 // 06384561

Transform your machine cost  
from static to flexible

051681 // 02648951

Pay an hourly price for machine usage. A flexible scaling lease model enabled by IoT connectivity.

## How it works

A low monthly baseline cost covers the initial hours of the machine per month. Each extra hour of usage is multiplied with an hourly fee (depending on the size and configuration of the machine). Keep track of expenses in realtime with IntelliTrail 2.0.

# TOTAL TRANSPARENCY

## A summary of highlights

078320 // 06384561

- ✓ A new internet of things era.
- ✓ Ground braking and advanced service capabilities.
- ✓ IntelliTrail 2.0 enables new offerings like pay-per-hour.
- ✓ Up to 40% savings on traditional service.
- ✓ Over-the-air updates, keeps your machine up to date years after purchase.
- ✓ Advanced reporting on sustainability, total cost to clean and more.
