

## Embrace Daytime Cleaning with TASKI® AERO 8 FLEXX.

Discover unmatched combination of low noise, powerful suction & long autonomy in one battery-powered tub vacuum.

# Daytime Cleaning Challenges

In today's fast-paced world, the demand for daytime cleaning solutions continues to soar as businesses and facilities seek to address labor challenges, optimize their operations, minimize disruption, and enhance overall efficiency.

At TASKI we understand the comprehensive requirements for seamless Daytime Cleaning and know that some of the vacuums existing on the market require customers to make compromises either on noise or performance. We created TASKI AERO 8 FLEXX to eliminate the need for compromise, boasting features that either match or surpass the best offerings available.

**Flexibility and safety**

**Unparalleled performance**

**Saving precious resources**

**Market beating productivity**

**Ultra-silent & healthy operation**

**Bespoke cleaning solutions**

## The game-changer in daytime cleaning excellence

As a leader in commercial cleaning innovation, TASKI understands the evolving needs of modern facilities. With the AERO 8 FLEXX, we empower businesses to fully embrace the daytime cleaning trend, delivering unparalleled performance, efficiency and safety with every clean.

### Flexibility and safety

Free from the constraints of cables, AERO 8 FLEXX eliminates the hazards of cable-related accidents and reduces the risk of slips, trips and falls that account for 30% of non-fatal injuries, making cleaning possible in a much wider scope of spaces.

### Unparalleled performance

At the heart of TASKI AERO 8 FLEXX sits a powerful digital motor that delivers supreme Air Power up to 215 W, picking up everything in its way. One pass is enough making cleaning times shorter than before.

### Market beating productivity

What's the use of a battery if you have to recharge it every half an hour? With up to 90 minutes of uninterrupted cleaning power AERO 8 FLEXX ensures maximum productivity, allowing cleaning teams to cover more ground in one stop. Lack of cable cuts unproductive time from plugging and unplugging, allowing for up to 30% more squared meters cleaned in same amount of time.

### Saving precious resources

Time is not the only resource AERO 8 FLEXX preserves. Its digital motor delivers up to 20% less energy consumption compared to standard cabled vacuums at a similar performance level. You won't need to replace this machine as often as others, as the motor life lasts up to 1500 hours, twice the market standard.

### Ultra-silent & healthy operation

Operating at an ultra-quiet 52dB sound level, our patented ultra-silent whisper technology ensures undisturbed cleaning during business hours, preserving the tranquility of the workplace. AERO 8 FLEXX also delivers superior indoor air quality, safeguarding the health and well-being of building occupants through optional HEPA H13 filtration.

### Bespoke cleaning solutions

With TASKI AERO 8 FLEXX, versatility is guaranteed: choose from a selection of 15 different accessories to tailor specific cleaning needs. From fleece and paper bags, to specialized nozzles and dusting brushes, tackle every task with precision. Opt for HEPA H13 or HEPA H14 filtration depending on specific requirements.
