Cleaning Machines

## AERO UP 30/38 B

Ultimate Flexibility, highest performance

AERO UP 30/38B - the battery powered upright is a powerful, durable and versatile upright vac for a wide range of cleaning tasks.

The roller brush technology delivers highest mechanical cleaning action and allows deep cleaning of carpets and hard floors while the operation is super easy and flexible as no cable is limiting the operator in doing his task. No cable related hazards, no limits in reach – for ultimate freedom and flexibility to simplify your cleaning operation.

### Ultimate performance for maximized productivity

The exceptional cleaning result of upright vacs are achieved due to the mechanical action of the roller brushes. The unbeaten battery autonomy of up to 1h 20 min allows unparalleled productivity to achieve all cleaning tasks.

### Designed for reliability

The single motor system of TASKI AERO UP 30/38 B provides an excellent air flow, while the high-speed brushes mechanically remove dirt within the fibers of the carpet. This system delivers a superior cleaning result and enhances the appearance of the carpet. Beside from this, the AERO UP 30/38 B comes with robust and reliable material for heavy duty tasks

### Versatility and Flexibility

The AERO UP 30/38 B is a versatile upright vac for a wide range of cleaning tasks. It's durable tools and the extension wand allows cleaning in hard-to-reach areas. It is designed to have a very low profile which makes cleaning under furniture quick and easy for efficient vacuuming. The battery allows super flexible cleaning operation without any cable hazards. The machine is lightweight and easily maneuverable, which allows a productive and ergonomic cleaning operation. Very easy maintenance - change the filters, brush roll and cord quickly and without any additional tools.

### Health and safety

The AERO UP 30/38 B comes with a 3-stage filter system: Filter bag, motor filter and HEPA exhaust filter. As changing the filters at the right time is the key to maintaining top vacuum performance and improving indoor quality, the 100-Hour HEPA Filtration Kit simplifies the maintenance and keeps the air quality on a high level. Easy and ergonomic transportation due to low weight.
