

TASKI® GO₂

The ease of cleaning with a compact and robust machine

The new TASKI GO₂ tub vacuum cleaner offers a cost effective solution for daily vacuum cleaning. Through the proven technology and robust design the product is the perfect match for all vacuum cleaning applications. The new TASKI GO₂ is made from 30% recycled plastic, contributing to waste reduction and promoting sustainability. By using recycled materials, the machine helps reduce the ecological footprint, supporting both environmental protection and sustainable development within the organization with the powerful, yet quiet motor reliable cleaning results are guaranteed.

TASKI GO₂ brings you:

- Great value for money
- Practical and robust design
- Powerful and silent performance cycle
- Sustainable approach

Best value for money

Through the use of cost effective materials and lean production methods the TASKI GO₂ offers a cost effective vacuum cleaner with no compromise in cleaning results.

Practical and robust design

The TASKI GO₂ vacuum cleaner has a simple, functional design and is engineered for high frequency cleaning tasks. By rationalising the number of parts used the TASKI GO₂ has an excellent reliability.

Powerful and silent performance

The 900W high power motor in combination with the smart motor positioning delivers powerful cleaning performance with low noise emissions.

Made with 30% recycled material

The TASKI GO₂ is made of 30% recycled plastic and is compliant with RoHS and REACH standards.

TASKI® GO₂

Technical data			
Canister volume	8 L	Cable length	10 m
Dust bag capacity	8-22 L	Hose length	2 m
Bag type	Paper	Suction tubes	Metal
Nominal consumption	700 W	Floor tool width	300 mm
Voltage	220 V	Dimensions	423x395x376 mm
Weight	5.4 kg (excl. hose, tubes)	Protection class	Class II
Sound level	69,5 db(A)	HEPA Option	H13
Sound power level	77,5 dB	Approvals	CB / CE
Vacuum	18 kPa	Filtration (stages)	2
Max air flow	32 l/sec	Tube diameter	32 mm
Full-bag indicator	Yes	Recycled Plastics	1005 g (30%)
